The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 10-12 and 14-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Onizawa '689.

Onizawa '689 disclose curable compositions comprising bromobutyl rubber, amino acids, sulfur and fillers such as carbon black and silica. These compositions are seen as meeting applicants' limitations to nitrogen level and amount of sulfur.

Therefore the reference anticipates the rejected claims.

Claims 1-5 and 10-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Ozinawa '079.

Ozinawa '079 discloses curable compositions suitable for tire production. These compositions comprise bromobutyl rubber, chlorinated polyethylene, amino acids, sulfur and fillers such as carbon black and silica.

Therefore the reference anticipates the rejected claims.

Claims 6-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
